

Continia Document Capture

Automated document management for Microsoft Dynamics 365

Business Central

Our partner Continia Software has set itself the goal of accelerating your processes. In more than 25 years Continia has gained experience in making Microsoft Dynamics 365 Business Central (formerly Dynamics NAV/Navision) more effective for customers.

From automated document processing and a confirmation portal to automated registration of travel activities, Continia Software offers many useful add-ons.

YOUR CHALLENGE WITHOUT THE ADD-ON

Do you still rely on conventional, manual document entry? Then you will certainly still compare purchase orders and documents manually and need a lot of time to search for documents in the archive. The location dependency should also be mentioned.

In summary, the conventional procedure is time-consuming, costly and error-prone and costs you time and money. We are of the opinion that these every day, administrative processes can be digitized and automated.

THE SOLUTION: CONTINIA DOCUMENT CAPTURE

The Document Capture add-on from our partner Continia is a certified add-on for Microsoft Dynamics 365 Business Central (formerly Dynamics NAV/Navision). Continia Document Capture is seamlessly integrated into Dynamics 365 Business Central.

The tool allows you to process all types of incoming documents. The add-on allows your employees to view and approve invoices electronically without the need to physically have the original invoice in paper form.

Document analysis using optical character recognition (OCR)

Using a template system in conjunction with document analysis using optical character recognition (OCR) enables you to automatically extract data from captured documents.

PDF files are downloaded – on demand – directly from specified e-mail addresses and processed using OCR technology. This process runs automatically – i.e. without any action on the part of the user. Paper documents are scanned by desktop or network scanners and processed in the same way.

Further processing of analyzed data

In addition, you can subsequently continue working with this data in Dynamics 365 Business Central (e.g. purchasing process in the Accounts Payable application area).

Archive

The digital archive contains all PDF files and scanned documents, which can be easily accessed via Dynamics 365 Business Central. If you want to view the document again, you can easily retrieve the original electronic document within Dynamics 365 Business Central.

Traceability

An electronic record is kept at all times of which person approved an invoice and when.

ADVANTAGES OF CONTINIA DOCUMENT CAPTURE

Functionality in the home office

Savings in time

Web browser

Transparency

DOCUMENT CAPTURE AT A GLANCE

Features

Adding documents to each record using drag & drop

Registration of different types of documents (e.g. payment advice notes, delivery notes)

Approval procedure within Dynamics or web portal for incoming invoices

Compatibility

Microsoft Dynamics 365 Business Central

Microsoft Dynamics NAV

Prices

Cloud: In the case of Dynamics 365 Business Central Cloud, the price depends on the number of documents registered per month and is therefore very individual. And please note that the gradations range from 0 to a maximum of 99,999 documents per month.

For this reason, only example scenarios are given here:

- 25-99 Documents: 20,00 €/month¹
- 100-199 Documents: 40,00 €/month¹
- 500-749 Documents: 127,00 €/month¹
- 750-999 Documents: 187,00 €/month¹

On-Premise: The price for on-premise use, on the other hand, depends on the users who work with the product. It does not matter how many documents are registered:

- up to 5 users: 3.800,00 €/company²
- 6-19 users: 4.750,00 €/company²
- 20-49 users: 6.000,00 €/company²
- 50-99 users: 8.750,00 €/company²
- more than 100 users: 12.000,00 €/company²

¹ The subscription is subject to a fee, has a duration of twelve (12) months with monthly advance payment and is valid for one company. If you do not cancel the subscription thirty (30) days prior to its expiry, the term will be automatically extended by twelve (12) months. For more information about the subscription, please visit our anaptis Shop and see the Privacy Policy as well as our General Terms and Conditions.

² With the purchase of an On-Premise license, an annual maintenance fee is due at the same time, which increases annually by 2%. The maintenance fee is

- for up to 5 users 608,00 €
- for 6-19 users 760,00 €
- for 20-49 users 960,00 €
- for 50-99 users 1400,00 €
- for more than 100 users 1920,00 €.

Changes and errors are reserved.
